

# PRESS RELEASE

30 September 2024

Hanwa Thailand Co., Ltd.

## Notice of the Ransomware Attack

We “Hanwa Thailand Co., Ltd.” discovered the unauthorized access attack, which is believed to have been caused by ransomware to the servers and computers on 14 September 2024.

We have reported the incident to THE CYBER CRIME INVESTIGATION BUREAU on 20 September 2024 for further investigation.

Our IT team immediately implemented measures such as shutting down and initializing the servers and computers to prevent the damage from spreading. It was also confirmed that this unauthorized access also caused unauthorized access to the file server. As a result of the investigation, no facts have been found to confirm the leakage of the files on the server, but it was confirmed that the file server contained files relating to business-related information provided by suppliers and internal information of the Company, and after analyzing the scope of the impact, we have decided to take measures to prevent the leakage. After analyzing the extent of the impact, we will inform the affected suppliers individually.

We will further strengthen our network access monitoring system and authentication methods.

We sincerely apologize for any inconvenience and concern this incident may cause to our customers and other concerned parties.

In the event that any new important matters are identified in the future that should be announced, we will promptly disclose them.
